

Assignment

Unit 4

Q 1. Case Study: Analyze CNN-based image classification system.	CO3	CR
Q 2. Numerical: Calculate number of parameters in a deep neural network.	CO3	AP
Q 3. Numerical: Compute output size after convolution and pooling layers.	CO3	AP
Q 4. Explain RNN and its variants.	CO2	AN
Q 5. Explain training of deep networks step-by-step.	CO3	AP
